MEMORANDUM

SUBJECT: VON BRAUN, Werner

1. The files of this office reflect no additional information concerning Subject except for that which was contained in an FBI memorandum dated 29 September 1951 indicating that Werner Magnus Maximilian Freiherr Von BRAUN had been interviewed by the FBI. The interview concerned one Walter SCHEIBER who worked with Subject as a scientific adviser in the development of guided missiles in Germany prior to and during World War II. SCHEIBER went to Russia in 1945 where he was employed in a similar capacity and later returned to the American Sector of Berlin, Germany.
